

Having the right mixer for the job makes all the difference, that is why we designed The Classic 1400/1410 Air-Driven Series. For environments that utilize compressed air, the 1400/1410 Air-Driven shaker is a great mixing solution that is capable of handling an extremely broad range of materials for countless applications including automotive, chemical, wood finishes, marine, R&D, and various lab settings.

- Requires airflow of 8 CFM at 100 PSI (22 SCFM)
- Shakes gallons, quarts, pints, and a variety of containers of all shapes and sizes ranging from 3<sup>1/2</sup> to 11 inches in height with a maximum can diameter of 7 inches
- 18 lb. standard load capacity

**THE CLASSIC 1400/1410 BASES (REQUIRED FOR USE)**

- Pedestal Base allows you to place your 1400/1410 at counter height without losing valuable counter space
- Counter Base features a coil spring suspension for quiet countertop mixing
