

### Continuing the tradition of innovation.

The Speed Demon 5 features an advanced spring suspension and isolation system that dampens structural vibration when mixing, easy-load bail retention clip, and a low lift height for fast drop-in loading.

By utilizing Red Devil Equipment's direct-drive and gear-drive technology, the Speed Demon 5 is designed to eliminate wear items and provide superior mixing repeatability and reliability. The Speed Demon 5's vortex mixing action spins containers on a dual axis, making it a great mixer for a wide range of materials.

- 1 HP energy efficient motor for mixing heavy bodied products and containers
- Extremely quiet operation for use on sales floor
- Low lift height and wide opening for simplified loading and unloading
- Smallest five gallon vortex mixer in the market

### SPRING SUSPENSION SYSTEM

One Gallon Adapter for mixing round or square one gallon containers (sold separately)

- Advanced spring and isolation composition reduces the stress of vibration, resulting in increased longevity of machine
- Spring Suspension System provides optimal mixing stability for extremely quick colorant dispersion
